Broaden out with features  
your customers really want.

# Why Spectrum?

## Beyond Ordinary Driving Range

Are you still offering only tee booths and balls? Equip your driving range with new features that most customers now demand.

## Data Archiving

Spectrum's innovative data archiving system works in two ways: it effectively manages customer data and allows customers to make the most of their integrated analysis.

## Quick Return on Investment

Spectrum takes your driving range to the next level. With improved customer satisfaction, you achieve the fastest and most effective return on investment.

## Integrated Analysis

Spectrum provides you with an integrated analysis of golfing skills, including posture, trajectory and impact analyses.

## Seamless Data Connectivity

Results of the integrated analysis are delivered seamlessly from Spectrum to the customer's personal device.

## Boosting Lesson Requests

Spectrum's integrated analysis and efficient data management system motivate customers to invest more in learning from professionals.

*‘ Revenue Increase with Customer Satisfaction ’*
